Saturday May 1st. 7.30 p.m.

CONWAY HALL

RED LION SQUARE W.C.1.

Nearest Tube - Holborn

FOR REVOLUTION

As our class, the working class, approaches and arrives at another Workers' Day, we should take stock of where we are.

The highest rising unemployment figure for decades; a real savage cut in the workers' standard of living, (£6 maximum wage increase, against 25 per cent rise in the cost of living); virtually no capital investment by the bosses in Britain; the continued outflow of cash investment abroad, particularly to the Common Market: what is the future facing workers and their families?

To believe the capitalist press, all that is needed is to be docile until 1977 - 78, when the world crisis of capitalism eases, then we British workers will be lifted up by the rising standard of living of the capitalist overseas.

This is totally rejected by the Communist Party of Britain (Marxist-Leninist).

This island of ours, having been abandoned by the capitalist, can only be saved as a place in which to live and raise a family in dignity, by socialism.

Come to Conway Hall to hear the workers' alternative.

Build socialism . . . STRUGGLE FOR REVOLUTION.

Read "THE WORKER" fortnightly, 3p.

Study Marxism, science of working class struggle.
