#### Opposition Demands United Front At Second Jobless Conference

LEAGUE REPRESENTATIVE PROPOSES UNITED FRONT POLICY BE ADOPTED TOWARDS CONFERENCE FOR UNEMPLOYMENT ORGANIZED BY SOCIALIST LEADERS

ment in New York City was held on Sunday, February 5 at Irving Plaza. Only about one-half of the delegates who attended the first conference two weeks before were present at Sunday's meeting. sag in the movement which followed from the incorrect policy of the leadership was to be noted, and the difficulties have become further complicated by the action of the Socialist party in calling a rival conference of labor organizations for February 25 at the Rand School Auditorium. The attitude to be taken toward this disruptive maneuver of the Socialist leaders was the most important question of policy under consideration the Sunday conference.

On this point the entire discussion centered around the proposal of the excutive committee for a boycott of the S. P. conference and a head-on struggle against it, on the one side, and a counterproposal made by comrade Cannon in the name of the Left Opposition. Here again, as in the first conference, the fundamental questions of united front policy came to the fore. The elementary ideas of lent attacks upon the share cropthe Lenin tactic were again elucid- pers' meetings at Camp Hill, An ated by the Left Opposition and once more the objections to them, which were laughed out of the Communist International over ten years ago, were solemnly repeated by the Stalinist spokesmen, Hathaway, Winters, Nessin, and others.

The resolution of comrade Cannon, designed to frustrate the splitting tactics of the Socialist leaders and to organize a unity movement within their own ranks, reads as

#### RESOLUTION

"Whereas, The Socialist Party of New York City, through its Labor Committee, has called a conference of workers' organizations on Unemployment for February 23, and has specified in its conference call the demands of 'unemployment insurance, the 5-day and 30-hour week and further unemployment relief' and

In speaking for the resolution, comrade Cannon said that the calling of the S. P. conference was a deliberate move to disrupt and split the movement and was designed at the same time to cover up their own lack of activity in the struggle for the unemployed. On this point there was no disagreement with the executive commit-

YOUNG NEGRO COMMUNIST IS GIVEN 18 TO 20 YEARS IN GEORGIA; NO BAIL GRANTED

One of the most heinous crimes yet committed by the white bourton ruling class of the South has come to light in the case of Angelo Herndon.

Coming on the heels of the viogelo Herndon, a young Negro Communist was picked up in the chain gang state of the union, Georgia, and sentenced to from 18 to 20 years on the chain gang for no other "crime" than that of possessing Communist literature on his fense has already been able to point out, is permitted by federal, authorities to pass through

This act of panicky terror is a glaring reflection of the fear that the rising militancy and consciousness of those most oppressed Negro workers and farmers, is putting into the hearts of the southern ruling class. More than that, the numerous examples of solidarity between black and white workers against their common enemy, the hosses, have been of no little consequence in increasing the bour bons' terror. As was to be expected the Negro politicians and mis-

leaders of the Negro toilers placed the cart before the horse in their criticism of the Angelo case. To

Andres Nin, former secretary of the Red International of La-bor Unions and a prominent leader of the Spanish Left Opposition since his expulsion from the Soviet Union by the Stalinist apparatus, was arrested in Barcelona a few weeks ago in a police raid upon his home. On December 27, the police perpetrated the same thing upon comrade Henri Lacroix. After being held for three days in the headquarters of the Special Police, they were transferred to the prison where it was made known that they were at the disposal of the mili tary authorities of Andalusia.

After seven days in prison, comrade Lacroix was transferred to Algeciras at the disposal of the military judge; but comrade Nin is now in prison in Barcelona, without any reason being given nor anyone officially in-

formed as to his condition.

More than eight months ago our comrade Maximo Carnicero was imprisoned in Barcelona withuto any information given on his legal situation. Our comrade Rastrollo has been confined in Badajos prison for five months and comrade Llerena, together with other comrades, are incarcerated in other prisons. Unlike the Stalinists, the Spanish bourgeoisie does not konw that the "Trotskyists are counter-revolutionists."

SOVIETS ARE THREATENED

Will Japan break with the League of Nations? Will the League go to the full extent of condemnng Japan as the aggressor in Manchuria and recommending some form of action against Japanese imperialism? Or is this merely a sham fight to mislead the work ers of the world into believing that the League is really an international organization for preserving peace and outlawing war?

The struggle among the robber imperialist powers is far from be ing a sham. In this period of capitalist decay, every capitalist country fights desperately to maintain and expand its markets and its economic power at the expense of every other country. Japan's profound disturbance of the imperialist world's balance of economic power in the Far East, its closing of the Manchurian frontiers to all but its own exploitation, arouses the greatest alarm among the rival mperialist ban**dits.** 

U. S. Takes Up Challenge

The direct threat to Yankee "influence" in China does not go unchadenged. The naval war maneuvers in the Pacific, the landing of troops in Hawaii, the charting for naval development of the Aleutian Islands with a view to attack Japan from the North to avoid her submarine bases, the discussions by U.S. army officers in technical magazines of the best methods of mobilizing and coordinating war industries—these are real enough moves towards war. ## In Boston

BOSTON.—The Needle Trade Workers Industrial Union called a conference to protest against Governor Ely's attempt to abolish the

labor laws of Mass. Seventy elegates from thirty organizations, sixty-two branches were present. They consisted of four A. F. of L. locals, Workmens' Circle branches Communist League of America (Opp.); Communist party; Left wing clubs, schools, IWO, TUUL, a few shops, and the ILD.

It was supposed to be a united front conference of all labor organizations. The party representative talked a lot about unity but did not forget to make plain the kind of unity they mean-unity "with the worker's not with the

A resolution was adopted for a program of action: (1) A United Front State Conference to enforce the existing labor laws and improve them (2) A demonstration in front of the state house where a committee will present a list of demands adopted at the conference. A plan of action committee consisting of one delegate of each organization was elected. The delegate of the Communist Leageu of America (Opp.), Jennie Chiplovitz, spoke on the resolution and made another proposal to call a real united front of all labor and political organizations not only of the individual workers and individual locals, but also the central bodies. She pointed out the importance of the conference and the necessity of including all the workers as long as these reactionary leaders have a following of thousands of workers who still believe in them. We must find a way of reaching them. We must see that the united front does not remain on paper, but is effective. Therefore we must call the leaders and the organizations as well as the individual workers.

There was applause by those workers that were not quite aware that they must not applaud a Tretskyist. No one attacked spoke in favor of the proposal. The party spokesmen did not want to give the Opposition credit for the proposal; so they were silent. But unless they call a genuine unihave the same results as all the other abortive party conferences.
