In the same city the democrats regis-

157 less than in '98. In Salem Moody's

vote decreased exactly 400 in four years

It will be seen, therefore, that while Congressman Moody was re-elected. yet the Social Democrats are the only ones who have made an increase in votes and that the 1891 votes regiser against Mr. Moody in Haverhill are a warning to the republican party that the Social Democrats will give them a lively battle in the congressional election two years from now. THE RESULT IN HAVERHILL

HAVERHILL MOVEMBER 10, 1900.

There is every good reason why the Social Democrats should be satisfied with the results of the election in

Haverhill on Tuesday, for while apparently the vote for the whole ticket did not come up to expectations, yet everything considered, the showing made is one that should infuse confidence and courage in the hearts of everyone fighting for the right. Surely if ever there was cause for a party to rejoice, the republicans of Haverhill should be expected to do so. But what do we find?

The action of Prof. Frank Parsons, Eliweed Pomeroy, George Galvin and B. O. Flower in publishing an open letter to Comrade Eugene V. Debs on the eve of election, requesting him to withdraw in favor of Bryan, evidently with the purpose of drawing votes from Debs to Bryan, has received well merited condemnation from the Social Democrats of the country. It was a trick worthy only of capitalist politicians, especially when it was given out that these gentlemen were Social Democrats. None of them belongs to the Social Democratic party, nor ever did, and there is not an utterance lead one to believe they were Social used to protect "our" property in the Democrats. ing Debs and Harriman 7901 votes and for Bradley, governor, 16,932 the latter vote being more than sufficient to make the Social Democratic party an official party. The estimated total vote for Crane, republican candidate for governor was 374,683 and 3 per cent, the proportion needed to qualify a party for a place on the state ticket, without filing nomination papers, is 11,240. The socialist labor party has fallen behind the 3 per cent basis For comparison sake we publish the votes for covernor in various cities and towns in 1898 and 1899 with the vote wherever obtainable in 1900. PLATORM OF THE SOCIAL DEMO-CRATIC PARTY.

Headquarters: Room \$4 National Theatre Building, Springfield, Mass William Butscher, National Secre-

Massachusetts State Committee: Squire E. Putney, 4 Belmont Court

The Social Democratic party of the United States, in convention assembled, reaffirms its allegiance to the revolutionary principles of International Socialism and declares the supreme political issues in America to-day to be the contest between the day to be the contest between the working class and the capitalist class for the possession of power of government. The party affirms steadfast purpose to use those powers, once achieved, to destroy wage slavery, abolish the institution of private property in the means of production, and establish the Co-operative Common wealth.

In the United States, as in all other civilized countries, the natural orde of economic development has separa-ted society into two antagonistic classes—the capitalists, a compara-tively small class, the possessors of all the modern means of production and distribution (land, mines, machin-ery and means of transportation and communication), and the large and ever-increasing class of wage workers possessing no means of production.

This economic supremacy has secured to the dominant class the full control of the government, the pulpit, the schools and the public press thereby making them the arbiters of the fate of the working class, while it is reducing it to a condition of dependence, economically exploited and open the condition of the conditi pressed, intellectually and physically crippled and degraded, and its political equality rendered a bitter mockery; and the contest between these two classes grows ever sharper. Hand in hand with the growth of monopolies goes the annihilation of small industries and the middle class depending upon them; eyer larger grows the multitude of desperate wage workers and of the unemployed, and ever fiercer the struggle between the class of the exploiter and the exploited, the capitalists and the wage workers.

The evil effects of capitalist produc-tion are intensified by the recurring industrial crises continually rendering the existence of the greater part of the population more precarious and uncertain, which amply proves that the modern means of production have outgrown the existing social order lased on production for profit.

Human energy and natural resources are wasted for individual gain. Ignorance is fostered that wage slav-ery may be perpetuated. Science and invention are perverted to the exploit-ation of men, women and children.

The lives and the liberties of the working class are recklessly sacrificed for profit. Wars are fomented between nations;

indiscriminate slaughter is encour-aged; the destruction of whole races is sanctioned in order that the capitalis sanctioned in order that the capital-ist class may extend its commercial do-minion abroad and enhance its supre-macy at home.

The introduction of a new and higher order of society is the historic mission of the working class. All other classes despite their apparent or actual con-

despite their apparent or actual conflicts are interested in the upholding of the system of private ownership of the means of production. We there-fore charge that in this country the Democratic, Republican and all other parties which do not stand for the complete overthrow of the capitalist system of production are also the tools of the capitalist class.

act as a class in its struggle against the collective power of the capitalist class except by constituting itself into a political party, distinct and opposed to all parties formed by the propertied

We, therefore, call upon the wage-workers of the United States, without distinction of color, race or sex, and upon all citizens in sympathy with the historic mission of the working class to organize under the banner of the Social Democratic party, as a party truly representing the interests of the toiling masses and uncomprisingly waging war upon the exploiting class, until the system of wage slavery shall be abolished and the Co-operative Commonwealth shall be established. Pending the accomplishment of this

Pending the accomplishment of this our ultimate purpose, we pledge every effort of the party for the immediate improvement of the condition of labor, and also for the securing of its progressive demands.

"Workingmen of all countries, unite! You have nothing to lose but your chains, and a world to gain!"
