Comrades Neben and McIntosh
spoke recently before the Brewers Untion of Newark and were well received. They pointed out the struggle that is constantly going on between the pro-ducers and the parasites, the workers and the capitalists, and showed that orking people must carry this same fight into politics, where their numbers make them strong. This is the reason the Socialist Party is in the field, and its object is to secure public ownership of the wealth created by the united labor of the working class, so that those who work shall get the whole product of their labor, instead of having to divide up with non-pro-ducing capitalists. Only these means can the present conditions of poverty and oppression be ended and justice and liberty brought in. This move ment is growing stronger day by day, and every vote cast for Vail and for the other candidates of the Socialist Party will bring the dawn of freedom r and strengthen the hands of the ingmen in their daily struggles.

PENNSYLVANIA SOCIALISTS

Have to Adopt New Official Name at Last Moment.

Public Ownership Party" Will Bo Designation on Official Ballot-Technical Ruling of Capitalist Court Makes Us Trouble.

Unfortunately for the Socialist movement, and entirely unexpectedly, the comrades of Pennsylvania have been thrown into temporary confusion by the decree of the Dauphin County Court sustaining the DeLeon obje tions to their nomination papers and denying their right to use the "Socialist" as the party name for their state ticket. The rensoning (?) of the court by which this result was effected passeth all understanding, and could easily be considered quite humorous were not the effects at this time of so serious consequence.

Litigation over the right to use the appellation. "Socialist" in Pennsylvania began with the split of the S. L. P. in 1899. In that year the larger portion of the party, the progressive, auti-boss element filed a claim, in pursnance to the law, to the name So ist Labor Party, and filed nomination papers; the DeLeon faction also files, nomination papers, but no claim to the nomination papers, but no claim to the name. A contest occurred thereupon in the Dauphin court (which is the tribunal appointed by the law to decide contests over state nominations.) The DeLeonites filed objections; the respondents frankly admitted irregularspondents transity admitted irregular-ity in their papers. Both factions shought to use the name, Socialist La-thor Party. The court held the De Leonite papers to be regular, and struck the other off; the claim to the name by the larger faction was ig-

In 1900 the "Socialist" party was formed in Pennsylvania by the union of the anti-Del.conites and the Social Democratic Party, at a joint conven-tion held in Philadelphia on July 4. A state ticket was named, including thirty-two electors for Debs and Har-'An affidavit claiming exclusiv right to use the party name, "Social-ist," was filed, and later the papers aominating the candidates named at the convention. With the papers was filed a certificate in compliance with the ballot law. Thus, by the act of the July convention, the dishonored na of Socialist Labor Party was abande ed to the little DeLeonite faction, and they filed nominations under that name, and objections to the use of the name "Socialist" by the new party. Counter objections were then filed by the Socialist Party. On hearing, the court dismissed all objections, and decreed both papers valid. The official ballet of 1900 contained the Socialist and the Socialist Labor Party tickets, and the right of both parties appeared to be judicially determined.

to be judicially determined.

Immediately, after the election of 1900 the Socialist Labor Party filed a renewal claim for the exclusive right to use that name in the election of 1901 and complied in other respects with the ballet law. But the DeLeonifes had not abandoned all confidence in the capitalists courts to serve the interests of the capitalist class by confusing the So-cialist movement, notwithstanding their vehement denunciation of the courts, and they again applied to them Pennsylvania state politics. 'This time, as in 1800, they were successful. The court upon the filmsy pretext that failure of the Socialist Party to file the prothonotary's certificate with their nomination papers cost them the right

to use that name.

It is not to be intimated that the fact that at the election of 1900 the new party polled nearly twice as many votes as the old Socialist Labor Party. presaging the early elimination of the latter, indicated to the court the moseffective way to preserve the existing system, but it will be difficult, if not impossible, to prevent intelligent read-ers from putting that construction upon it, particularly after the text of the opinion shall have been published. More important matters preclude ex-tended comment on the opinion at this time. Suffice it to say that the learned court satisfied itself, for the purpose of Newark. They need not fear this judgment, that the filing of a the companies will discharge trifling certificate from the prothonofor all communications are tary that certain electors of the state were in conflict with certain other electors in the use of an appellation to designate their political policy, would enable each to infringe upon the legal rights of the other-just what the court decided in 1909. It is held by good lawyers and s courts in Pennsylvania that the ballot may be marked in such cases with an X in the circle under each party name, but a safer method will be to mark the name of each candidate with an X in the square provided for that purpose at the right of the column.

He said in part: "There is hardly much need of my addressing the voters of the Seven-teenth Ward to-night, as all those who have preceded me have covered ground. But let me tell you that our friends, the enemy, are trying to scat-ter the seeds of pessimism among you. They say that while our platform is all right, and our candidates above reproach, still we have no chance to win. Doesn't this large audience give the lie to their statements?

"These professional politicians will come to you and try to fill you up with beer and offer you perhaps two dollars for your vote. Just think of it! You can't buy a hog for that; but the polle-ticians buy some men of this city with two dollars.

"Some people now say: 'Suppose that one Social Democratic alderman is elected in the Seventeenth Wards what could be do? WHAT COULD ONE ACTIVE CAT DO IN A HOUSE CONTAINING NINETEEN RATS? (Applause.)

He complimented the workingmen of the Seventeenth Ward upon their man-ifest determination to make this campaign result in some material benefit for themselves, as was clearly demon-strated by the size of the meeting there. Continuing, he said: "There never was a time in the history of our country when the need for working-men to enter the political arena, inde-pendent of all capitalist parties, rally-ing strongly to the support of their wn, was so great as now.

"It is not necessary to go to other offies or localities for examples of capitalist oppression visited upon the working class, both in the economic and the political field. THE MAN FOR MAYOR.

At a largely attended meeting of the Labor Lyceum in the Common Council last Sunday afternoon Gad Martin dale Social Democratic Party candidate for mayor, delivered an address on "What's Social Democratic Mayor

Could Do for the City."

He explained the principles of the party, the nationalization of land, the nationalization of capital and the national employment through a popular government of all the labor of the nation. He said that while these great objects could not be carried out in a city government, much might be done to better the condition of the laboring

"If we cannot," said Comrade Mar tindale, "in a municipal election abol ish the oppression of the trust, uplift the struggling workingman, end mon-opoly and vice and introduce liberty and virtue, yet there are some immedi ate reforms, there are some amelicra-tions, which as a Social Democratic Mayor, I could introduce.

"The contract system of public work undertaken by the city could be entirely abolished and instead of contractors undertaking the work of improving and grading the streets, such work could be done by the city direct, and the profits new made by a middle man could be used and applied by the city in order to pay men upon such works

full union wages.

"The public schools, which, by the way, are true Socialistic institutions, badly administered by a capitalistic AN OBJECT LESSON.

Inunicipal government, I admit, could by a Socialist mayor be improved in the interest of the school children and good work? Would you trust an emplayee to whom you paid only \$6.25 a week with the handling of valuable raw material? No; you would not. But you expect a public school teacher who rini-that out of which the future citi-

to the Cosmon Council to appropriate \$25,000 for the purpose of providing free text books for the public school children. The council rejected it. The same body appropriated \$150,000 for construction of a high school in the eastern part of the city, and for the benefit of the children of the rich and aftuential portion of our population. In making this appropriation the Com-tion Council acted in accordance with its prisciples, voicing the demands the capitalistic class. the capitalistic class.

Morris Hillquit, Social Democratic andidate for Assembly in the Fourth assembly District of New York City, has addressed to his Democratic and Republican opponents the following "Messrs, William H. Burns and Max Brown.

"Gentlemen:-As the candidates our respective parties for the office of member from the Fourth Assembly District, we appear before the same constituency, with rival claims to the

"I believe the citizens of the Fourth Assembly District are entitled to know what we and the parties represented by us stand for in this cam paign, and what policy we will respect ively pursue in the hall of legislature h

"To enable us to explain that, a mass meeting of the citizens of the Fourth Assembly District will be held on Tuesday evening, October 29, 1901, at the American Star Hall, No. 165 Eas Broadway, this city. I will speak at that meeting and will contends

"I. That the overwhelming majority of the voters of the Fourth Assembly District are workingmen, and that their interests lie in the improvement of the conditions of their class.

That you, Mr. Burns, as the can-didate of the Democratic Party, and you, Mr. Brown, as the candidate of the so-called 'Fusionists,' equally represent the class interests of the employers and exploiters of labor, and the personal interests of their political tools; that you have no understanding of the needs of the labor population of your district; that you have never by act or word defended the interests of labor against the oppression of cap-tal, and that if elected by the working men, you will not serve them, but thei Party's candidates-the Button Workmasters.

That the Social Democratic Party, as a Socialist party, truly repesents the interests of the working class at all times, and on all occasions; that it has no interests other than those of the working class and that its representatives, if elected, will faith fully serve that class.

"f. That there is no reason in the world why the workingmen of our dis-trict should vote for either of you, but

trict should vote for either of you, but that the only way, in which they can vote intelligently and consistently is by casting their votes for the Social Democratic Party and its condidate.

"I hereby challenge you, and each of you, to a joint debate on the above proposition at the sneeting mentioned. Should you preper, you will be treated with the utpost courteer and will be with the utmost courtesy, and will be accorded the same privileges of debate as I. Should you fail to appear, the citizens of our district will have to construe your absence as an admission of

It is not likely that Messrs. Burns and Brown will accept this challenge. They probably know too well the weakness of their cause to meet a So-callet in dehate. If they should "foe cialist in debate. Comrades:-Only a few days remain before election, and much work re-mains to be done. Thousands of leaf-lets and cards are still to be distributed Further assignment of lieutenants to assist district captains in their duties are to be made. Outdoor and indoor meetings are to be arranged. YOUR presence at every business meeting is urgently desired.

Don't sit tiack and think that, because you have worked strenuously in the past, the future will take care of itself. YOU may be just the man whose services are most needed. Press forward and bring the glad tidings to your fellow workingmen; show them how and why Socialism will and must bring them freedom from the galling chains of wage slavery.

Every sympathizer in the district can also help in the work and is invited to do so. Come to the Clubhouse, 206 E. Eighty-sixth street, and ask for literature to distribute among your neigh-bors and shopmates. You will get it. Get your friends out to our meetings and tell them about our platform, our ticket, and our embiem. We need your assistance, for we have no "barrel," as the capitalist parties have. We depend

SCAB AGENT LOW.

Four months ago the machinists all over the country were on strike for a nife-hour day. Among others were the employees in the 'Crocker-Wheeler works in Essex County, New Jersey, They were making a brave fight, as-sisted by their fellow workmen in other trades. It was very hard to get seals, because all workingmen knew that the strikers were right and all honorable workingmen wanted them to win.

Do you remember what happened then? This is what happened A lot of STUDENTS from the engineering department of COLUMBIA neering department of COLUMBIA UNIVERSITY in New York City were

sent over to New Jersey to SCAB on those strikers and help Messrs. Crock-er and Wheeler defeat the null-hour The man who then presided over Cot-

umbla University and who was RE-SPONSIBLE FOR THUS TRANS-FORMING IT INTO AGENCY is now running for Mayor of New York. His name is SETH LOW. Workingmen, are you going to vote for Scab Agent Low of for Ben Hau-ford, who has worked at his trade all

his life and carried a card ever since he was old enough to join a union? Ben Hanford's name will be on the ballot under the emblem of the Ariu and Torch.

Every man or woman in New York City who sympathizes with the aims the Social Democratic Party can do something to make votes for the Arm and Torch. Not every one can make speeches or even help to organize etings; but every one can take part to what is much more important than the holding of meetings-the distribu tion of Socialist literature. We have The Worker. We have several leaflets athie blatform in English, in German, and in Jewish, Hanford's address of acceptance. a small leaflet addressed to treate uniquists and one or two others. We have cards showing the party name, the emblem, and the ticket. You ore, at one cent a copy, by sending to this office, 184 William street. You can get cards and leasets at the Labor Lyceum, 64 E. Fourth street, free. See that you supply as many people as you can from now till Election Day.

When the Democratic party says that | neut to debate. It would now be prop-"In respect to capital and labor, it is friendly in the largest sense to both," it offers to attempt that impossible fent. The S. D. P. makes no such pretenses. . It pledges itself to the interest of the working class, as against

wealthy citizens who had neglected to register, asking them to register and vote. The wealthy citizens are indifferent because they know that no matter whether Low or Shepard is electedthe interests of the wealthy will be catered to. Just as soon as the Socialist vote becomes dangerously large every one of the wealthy citizens will be found voting with abscrity and alarm.

rates from two Socialist papers, the "Challenge" of New York and the "En dercurrent" of Redlands, Cal., is followed up by a ruling denying such privileges to all trade union papers that publish any advestisements other than those directly pertaining to their own organizations.

This is a body-blow at trade union sm, dealt straight from the shoulder by the Republican national administra tion. J. P. Morgan and John D. Rocke feller could explain its motive, if workingmen do not understand.

The order is a most infamous perversion of the law, made in direct an tagonism to the interests of Labor, and explainable only as being directly in the interest of union-smashing capital ists. The only way to parry such a blow is to east a straight Socialist bal-

Socialism, by putting an end to the poverty of the workers and the luxury of the idlers, would establish social conditions that would favor the growth of manly and womanly virtue instead of fostering vice and crime of all sorts. The General Convention of the Episcopal Church, in session at San Francisco, has decided to elect a standing committee to study the labor question and to offer their services as arbitrators in labor disputes, "with a view of bringing about mutual concillation and harmony in the spirit of the Prince of Pence."

The one fact that makes it absolute ly certain that this convention will do nothing to settle the labor question, buf that it may do much to confuse the issue and delay its settlement, is the presence of J. The prominence of this modern autocrat in the Convention and his medeviating hostility to the interests of Labor in his business life suggest the thought that it is not the Prince of Peace that the gentleman at San up at the corner of Broad and Wall streets.

A FORGOTTEN PLATFORM.

What has become of the Citizens

Union platform? Six months ago the Citizens' Union peld a convention and adopted a platform. It was a nice little platform. It had all sorts of sweet promises to working people. We should have been delighted with that platform-if The withdrawal of newspaper mail 3 Re had not known from the start that every promise in it was a deliberate

> It promised more schools and mor eachers and more libraries; cleaner streets; more public baths; more playrounds for children and more small parks: enforcement of tenement house laws; "judicious increase of direct en playment of labor by the city on its public works;" the prevailing rate of wages and the eight-hour day on all public work; and several other things which, if carried into effect, would onsiderably improve the condition of the working people of this city.

When that platform was adopted or April 26, 1901, the newspapers which are now supporting the "reform" ticket said it was a very bad platform. The gilt-edged "Evening Post" said it was "too Socialistic." Mr. Morgan's "Times" said it was "too Socialistic." The vitrio!-tongued "Sun" said it was "too Socialistic." They all said that the respectable citizens-which means the citizens with fat pocketbookswould not stand for such a platform a that. They said the "reform" movement could not win without Benubli can support, and that Mr. Platt would never endorse such a dangérous plat

The managers of the "reform" movement winked the other eye, and let ou: several howls of righteous determina tion. They said it was a question of principle, and they were going to stick to that platform. Thereby they caught several more or less slucere and less or more intelligent "labor leaders" and number of well-meaning but exceedlugly guillitie "practical philauthronista." That was what they set out to do.

When they winked the other eye, I was Platt and his friends they were winking at. Plaft understood them. They got together with Platt-they are great on "getting together," these "r formers"-and fixed things up. 10 1897. Platt thought Mr Low was a very bad man; so did the "Sun." Mr. Low returned the compliment; he sought Platt a very bad man and the Sun' a very mean and nasty sheet. In April, 1901, Platt thought the Citizens' Unlon platform a very dangerous one; so did the "Sun." But affer the "getting-together" process was finished. Platt and the "Sun" concluded that Mr. Low was a very 'nice man after all; and Mr. Low decided that Platt was a very nice man, too, and the "Sun" an excellent and public-spirited newspaper; and they all agreed that the Citizens' Union platform was an excellent thing to use-in certain quarters-at-certain times-for certain purposes, and that it would be the ensiest thing in the world to forget it And they forgot it.

Platt held a Republican convention and nonfinated Mr. Low. The Repub lican platform says nothing about the 'Socialistic" measures which the Citizens' Union platform set forth. It says a great deal about reduced taxation.

Reduced taxation means fewar chools and fewer teachers, fewer public baths, fewer playgrounds for the children, still greater laxity in the enforcement of tenement-house laws; borers and mechanics employed by the the things the Citizens' Union platforts

The glit-edged "Evening Post" and Mr. Morgan's "Times" and the vitrioltongued "Sun," who thought the Citizens' Union platform "too Socialistic, are all supporting Mr. Low in his curi ous feat of running on two contradic tory platferns.

They understand the game now They know that Mr. Low never meant it, and that the Citizens' Union never meant it. They know that the Citizens Union platform of last April is nearly forgotten now and that, if Mr. Low is elected, it will be entirely forgottenintentionally, carefully, and thoughtfully forgotten-on Nevember 6.

That is what it was made for-jr like Tammany's platform of 1897, which promised all the things that Tammany has not done since that

We wish to be able to give fuller reports of the Socialist vote in the cominc election and to give them more promptly than ever before. We must depend on the comrades throughout the country to help us in this. We therefore ask that in each local a certain comrade-be he organizer, secretary, or other member-be charged with the duty of sending in the report as soon as obtained. The comrade so chosen is further requested to write us at D. P. (and by the S. L. HOW TO MEET THE CONSPIRACY.

Never in the History of the United States has the direct conflict of interest between the capitalist class and the laboring class been made so manifest as in San Francisco during the past few months. The capitalist class in few months. The capital and many different forms, but recently and known as the "Employers' A ation" have confederated for the pose of disrupting and destroying all ganizations of labor in order that the workingman, being deprived of the support and sid of his fellow worker, may be more easily subjugated to the despatic will and power of als employ-er; that he may be rendered powerless in opposing long hours of labor and be ned by his necessities to accept the lowest wages. THE FRANCHISE BRIGANDS.

How the Rockefeller-Whitney-Brady Ring, by the Aid of the Old Parties, "Holds Up" New York City.

Value of Franchises Created by Growth of City's Life-Given Away by False Public Servants-Enormous Annual Ransom Extorted by Legal Means-Social Democratic Party Alone Offers Relief.

The greatest source of public cor-uption in American cities and in New York especially is undoubtedly the pri rate ownership of franchises for street railways, lighting and heating plant telephone systems, and similar publ services. So long as these industries are left in private hands, it will be idle to protest against corruption in mun

cipal government. This is only one of the reasons why the Social Democratic Party demands public ownership of such industries as one of the necessary measures of immediate rellef. Another reason is that the private ownership of fran chises represent an enermous plunde of the public which is compelled to make use of the transportation and lighting systems and which gets very had and inadequate service for its money. And the greatest reason of all is that public ownership upon Socialist. lines would put an end to the shame ful exploitation and oppression prac-tised by the franchise companies upon their employees.

THREE GOOD REASONS

In the interest of good government in the interest of the public service and especially in the interest of the overworked and underpald employees, the Social Democratic Party declares for the immediate municipalization of all these so-called . "public utilities." all these so-caued phone and pledges its candidates to carry out voters of the city shall give them power to do so.

It is necessary to consider the pecul lar character of these industries and the enormous and increasing value of their franchises before one will under tion they must everywhere be.

The services they render are indis pensable to the existence of a great city. New York could no more exist without her street railways, gas and electric plants, and telephone system than a human body could exist with out veins and arteries.

The pature of their operations is such, requiring certain special privi-leges and powers (of using public streets, taking needful private propby condemnation proceedings that they cannot be established without-special authorization from the This special authorization is what is called a "franchise."

For this reason, and also on ac count of the great cost of construction, the laws of competition do not apply to these industries as they do to others In general, there is and can be no real free competition in such services Wherever separate systems do for a time partially compete, combination, lawful or unlawful, is immediately ef-fected; and competition of any sort becomes more and more difficult as the industry becomes greater/ The charac fixed by the owners, except as certain conditions are imposed by the terms of the franchise or by law.

All must use these "public utilities" and the individual is absolutely help less before their owners. We may swear when we find "standing roon only" in a street car or receive an ex-orbitant gas bill; but as individuals we can do nothing more than swear The company has us by the throat and only through asing the public power can we defend ourselves.

The wealth of any company in such enterprises does not consist chiefly in the actual material equipment-in the tracks and cars of a street railway o system—but in the special authoriza-tion given by the public, the franchise

As the city grows in extent and den sity of population the income of these companies increases out of all proportion to the increased cost of operation The growing value of a franchise de-pends solely upon the growth of the population; it is a direct product of the city's life, not at all a product of those hold the franchise

In the large and growing value of franchison lies the creat cause of corrention. A franchise is the sure source of ever increasing grofit to fix owners and the company which asks for a franchise is always willing to give lib eral bribes to the public officials who place and to continue to pay liberally for protection as it grows more and more valuable.

SOURCE OF CORRUPTION.

There is not a city in the United States which has not had its "boodle" scandals, over and over again; and NINE TIMES OUT OF THE THESE SCANDALS ARE CONNECTED WITH THE GRANTING OF PUB-FRANCHISES. No conceivable administration under a system of public owpership, even without a "civil service" rule, could squal the maligr effects of private ownership. Not only do these great monopolies regularly and systematically corrupt individual officials; they regularly and systemati-cally corrupt political parties; their se-cret contributions to campaign funds are bribes given to the whole political are bribes given to the whose pointent machine as a body; and in giving em-plopment to inhorers and mechanics and clerks they use the same "spoils system" that prevails in capitalist poli-ties, using their "patronage" as a means of rewarding those who support the political parties that protect them in their mearned incomes. in their uncarned incomes. The value of the transit and lighting

ies which have been given away by the successive eld-party ad-ministrations in New York is so vast that it almost surpasses comprehengiven by conservative investigators, the value of the business of this great 00.000; there is good ground for puting it as high as \$225,000,000 the value of the franchise pure and simple, a value created by Expert testimony has shown that the

On the lowest pessible estimate, as

cost of producing good gas is not above 50 cents per thousand feet. The gas is sold at double this price. The amount sold this year was about eighteen billion cubic feet, and it will The amount of the net income, absolutely uncarned, taken from the peo-ple of this city by the Rockefeller-Whitney-Brady combination, through this franchise alone, can therefore hardly be less than \$9,000,000 a vearin dividends, interest, exorbitant sal-aries, and various sorts/of stealings.

And for the privilege of levying such normous taxes for their private exhequer, the capitalists in control have paid, once and for all, the sum

The street railways largely owned the same ring of capitalists-show no less impressive figures. The State Tax Commissioners, a year ago, esti-mated the franchise values of the four three) great transit companies which control the surface and elevated railways of the city at \$130,000,000 and we may be sure that the estimate a low one. This is the value of the franchises, be it remembered, altogether apart from the value of the tracks equipment. And the city govern-

ment has given this away for a total

consideration of only \$319,000 a year

to the city. The new Ranid Transit tunnel is a still more gigantic steal. The city has paid for its construction and equip-ment, and OVERPAID BY AT LEAST \$7.000,000. At the same time it has made the company A FREE GIFT FOR SEVENTY-FIVE YEARS TO COME, of the tunnel and road the city has paid for. 'And it is an undis-puted fact that the franchise will be worth \$200,000,000-paying net profits of \$8,000,000 a year.

HELD UP BY BANDITS.

Here we have, then, in the principal ighting and transit franchise and probably very much more created by the city and given away by the city government—and without any effort on the part of its owners, this perpetual source of private income at the public expense will continue to grow in value from year to year, as ong as the city continues to grow.

If a gang of bandits, like those w ead of in Bulgaria, were to attempt to hold up" the city by brute force and COMPEL THE PAYMENT OF YEARLY RANSOM EQUAL FIVE OR SIX DOLLARS FOR EVERY MAN; WOMAN, AND CHILD OF THE POPULATION, the would rise in arms. But this feller-Whitney-Brady gang of bandits HAS HIRED THE REPUBLICAN AND DEMOCRATIC STATE AND CITY OFFICIALS to put the people of the city at their mercy and enable them, under the guise of the law and with the protection of the police pow-er, to levy just such a rausom.

The service that the people get a o become worse in proportion as the neeme of the franchise-owners grow reater. The quality of the gas er ever since the price was raised from the profitable figure of 65 cents to the trebly, profitable one of a dollar per accidents on the street-car lines and the crowding of passengers, especially at the hours when working people have to go to and from their work. proves that the 'New York brigands have adopted as their rule of conduc-Vanderbilt's famous saying, "The pec

ple be damped."
WHY, IN THE FACE OF THESE PACTS SHOULD THE PROPLE CONTINUE, TO RESPECT THE STOLEN "VESTED RIGHTS" OF THE BRIGANDS?

OPPRESSION OF WORKMEN.

Worst of all is the fact that, in spite of the fabulous wealth of the owners of these franchises, the men who do the actual labor are fearfully over-worked, are paid, the merest subsist-ance wages, and are treated with less consideration than dogs.

The work of a street-car employee hard, implement, nerve-straining work, at the best. There is a lawlaw whose enforcement is absolutely necessary, for the protection both of the employees and of the public—limit-ing their hours of labor to ten a day. Not the slightest attention is paid to that law and NOT THE SLECTIEST ATTEMPT IS MADE TO ENFORCE

uctors and motormen cor to work eleven or more hours a day, and are actually kept away from their homes from fourteen to sixteen longs. For such toil they get wages of from \$1,75 to \$2.25 only, and in a few years they are worn out by overwork and are unable to get even that. They are watched like criminals, and

any attempt to organize for their own defense—any complaint, even, about the injustice they suffer—is punished by instant discharge and blacklisting. WHAT ARE YOU GOING

TO DO ABOUT IT? Such are the shameful conditions that the voters of New York, by their acquiescence in the rule of capitalist

parties, have allowed to grow up. And the capitalists insolently ask, as Boss Tweed once asked, "What are you go

ing to do about it?"

The two old parties, even in their periodic pre-election love for the people, have no answer to make. Neithe Tammany Hall nor the "reform" ag gregation offers any relief. Why should they. The franchise-owners are in both campa. They contribute to both campaign funds. They are ready to pay blackmall to whichever ready to pay blackmall to whicheve party may win, for the privilege o continuing their organized brigand age. THE CANDIDATES AND THE MANAGERS OF BOTH PARTIES THE MEMBERS OF THE CAPITAL-IST CLASS, AND ALL THEIR IN-TERESTS AND SYMPATHIES ARE NATURALLY ON THE SIDE OF the union of the Standard Off ring

> THE PUBLIC GOOD. What are you going to do about it? Only the Social Democratic Party, as a organization and therefore party having more regard for anmar welfare than for "vested rights," dares offer an answer.

All this, in view of the facts shown above, is perfectly practicable, not ten years hence, but NOW-if only the voters have courage and sense to de-But the question is raised: "Where

could the city get \$400,000,000 to pay or these franchises?"

The answer is: For the franchises whose value the city has created and

which have been stolen from it by cor-rupt politicians and capitalists, NOT ONE CENT SHOULD THE CITY PAY. as trustees of the city's wealth and welfare. If the trustee of a privateestate gives away the property entrusted to him, the owner does not have to buy it buck. The courts hold

that the trustee had no right to give it

away, that no one had a right to receive it, and that the act of tirely without legal force. REPUBLICAN AND DEMOCRAT-C JUDGES WILL NEVER APPLY THAT RULE to the franchises which city governments have given away. But even upon capitalist principles, it is a right and just rule-and Socialis

judges would apply it without health

If the Social Democratic Party-wer put in power in this city this year and authorized to carry out its immediate demands by lawful means, it would be in order, in receiving the ownership of the franchises, to pay the actual present value of the material equipmentand to take them, if necessary, by the same compulsory process by which the franchise companies have been author ized to take other private property needed for their purposes, hundreds of millions already pocketed in the form of profits we would de mend nothing. But for the franchises given away by official traitors to the

public interest wa would pay nothing And if this to STITUTION. The Prevailing Rate of Wages law was constitutional until SOCIALISTS ON THE BENCH AND THE RESTORATION OF THE PUR LIC PROPERTY TO PUBLIC USE WOULD BECOME CONSTITUTION-AL AT ONCE.

TAMMENY POLITICIAN WHO LOVES THE WORKERS

Editor of The Worker. In one of the New York dallies on Saturday, Oct. 12, were reported the names of all those that were naminated for office by the two old political parties. I may mention here the fact that it is the paper that rushed into print at the eleventh hour on November last, stating that E. V. Debis had withdrawn in favor of Beyan, and ed to report a plain denial by Comrade Debs himself.

This paper says:
"Jacob E. Brusch, renominated by the
Democrats for coroner, has held his ective membership in the Wood Carvers' Union since his election to office three years ago, and his official record shows that he has not lost in-terest in the labor movement."

Let us see how much truth there is in this statement. Mr. Bausch, like most other Tammany politicians, owns n beer saloon. His is on the corner of Levels and Grand streets, i Twelfth Assembly Listrict. patrons are mostly workingmen. When you go through Lewis street you will notice a big sign on the saloon owned by the man who is reported in this daily as an active member of the Wood Carvers' Union., You stop to read this sign, and what do you find? That he advertises a eight that has been boy-corted by every trade union in this city and vicinity and by the Wood Carvers in particular-annely the 'Robert Buras' cigar. The sign covers nearly the whole wall. Now if you eater the saloon, nek his bartender for a un-lon card. What will be the reply? ion card. What will lie the reply?
"My boss is a union man." You askfor a cigar, and if you do not insist on
the blue inbel, you will not get it. Ih,
hands over the scale cigar first. Now,
this is the man that "has not lost interest in the labor movement."

This is enough to make a horse
laugh; and it oughs to make a horse
laugh; and it oughs to make any workingman ashamed to vote the "laborloving" Tammany ticket.

During its four years of absolute pow-er in this city the Democratic party er in this city the Democratic p has done two things to remove question of municipal ownership to the

sphere of "practical application." J: It sas turned over the Brooklyn Bridge cars, fermerly operated by the city, to a private corporation which makes large profits upon their opera-tion and which has reduced the wages of the employees and constantly vio-lated the ten-hour labor law.

2. It has paid a private corporation \$35,000,000 for building a \$28,000,000 tunnel, and has turned over the complete control and use of that tunnel for seventy-five years to come, at a yearly profit of at least \$5,000,000 a year, to the same corporation and it has not even compelled fint corp tion to obey the eight-hour law on its construction work.

Not much "academic discussion" there, is there? Doubtless a "practica! application" of corporation corruption funds to the itching palms of Tammany officials was what acc ed this very successful "removal

NEW JERSEY.

While, for legal reasons, our organi-nation in New York is still called the "Social Democratic Proty," in New Jersey and most other states it is offi officially known as the "Socialist Party." Workingmen of New Jersey, look on the ballot for the name of the SOCIALIST PARTY and for CHAS. H. VAIL as candidate for Governor. In Jersey City, look for the name of FREDERICK ERAFFT, in Essex County for that of E. T. NEBEN, in Paterson for that of WILLIAM GLANZ, in Union County for those of and FREDERICK BAHM.

These and the other candidates under the name "Socialist Party" represent a political labor movement in harmony with the trade unions. Do not confuse it with the so-called "Socialist Labor Party," which disgraces its name by its tactics of scabbing and of abuse and disruption.

EQUALITY.

Socialism is not a question of equality of brains or equality of mus-cle. The meutal or physical ability of ent people have nothing to do

different people have nothing to do with eternal justice.

Because one person has greater wisdom than another, or can have more avoirdupols, is no reason that he should have better and purer food, more comfortable clothing or a more pleasant and healthy home.—South-western Advocate.

Open-air meetings will be held in the fol-lowing places during the coming week. Plactorm committees are instructed to have platforms, literature, banners, etc., on hand promptly at 8 p. M. at the appointed places. Speakers should also appear promptly on time.

THE ISSUE OF THE CAMPAIGN.

the issues of the campaign. But we lalists recognize only one issue in this or in any political contest. Our party stands for the emancipation of. the working class and the only issue we know, the only issue worthy of the attention of the workingmen to whom we appeal, is the issue of Labor against Capital, of Socialism against

All other issues which the capitalist parties may advance are ofther quarels between different sections of the master class, in which the wage-work- which does not claim to be respectable. ers have no interest, or else they are questions which arise out of the system of wage slavery and class rule and which cannot be settled until wage slavery and class rule are done away

The question of corruption and ex travagance in public administration is an example of the first class. It is a question upon which two sets of parasites are opposed; but the working class has nothing to gain by the vic tory of either side.

This is the principal one of the false issues in the present municipal campaign in New York City. On the one hand is the gigantic army of Tammany office-holders, with their hangers-on of all sorts. These men profit by extravsigant and corrupt use of public funds. It is their interest to levy heavy taxes upon the property owners of the cityexcept those individuals or corporations that are willing to pay bribes in order to get out of paying faxes and to spend the money so raised in such ways as will give the largest possible amount of "boodle" high salaries, fees, fat contracts, and stealings-to the city officials and their friends.

On the other hand there are the prop erty owners of the city, the majority of whom are not directly fitterested in politics, and upon whom falls the bur den of taxation. It is their interest to have a "pure" and economical administration of public affairs, because that will mean lower taxes, and lower taxes means higher net profits for them in their private business.

Both of these sets of people, whose interests are opposed on this particular question are parasites upon the workng class-they are people who do no useful work and who, in one way or another, get a good living out of the product of labor. To speak more correctly, the capitalists are parasites upon the workers and the politicians are parasites upon the capitalists-"Big fleas have little fleas upon their

"And these again have lesser ones, and

so ad infinitum." The capitalists, owning the shops and factories; railroads and other means of production with which the producers producers live, levy upon the workers a tribute of profit, interest, and rent. The politicians having control of the powers of government, levy upon the capitalists a tribute of taxation and of blackmail. The whole question of "economy had pure government" is capitalist parasites who bleed the workers and the politician parasites who bleed the capitalists. But just as the workers have nothing to gain by the victory of the corruptionists who bleed the capitalists, so they have nothing to gain by the victory of the property owners who bleed the working class. The working people of New York City get no benefit from the twenty-one millions of dollars which Tammany has added to the yearly budget of the city; it is spent in increased salaries for political heelers which cannot be settled-which, as and in tobs that give big profits to con- Benjamin Hanford has said cannot But the working people would get no benefit if the taxes were to be reduced to the old rate; the landlords would not reduce rents, the employers hours of labor; they would take just as much as ever from the workers in the form of profit, interest, and rent, and

The Tammany policy of corruption and extravagance is good for the polltician and bad for the capitalists who are not in politics.

would be the richer by the amount

The "referm" policy of "econe and pure government" would be bad for the Tammany heelers and good for the capitalists who are not in politics. Neither policy is good for the work

The policy which would be good for the working people is the policy of the Social Democratic Party-heavy taxe to be levied upon the capitalists and the city moneys to be spent for the service of the working class population -in schools, parks in the poorer quar ters of the city, the destruction of dis ease-breeding firetrap tenements and the erection of modern fireproof dwellings in their stead, abolition of the contract system on all public works and shortening of hours and raising of wages for all mechanics and laborers employed by the city, strict enforce labor and of the public health, etc. That policy would be bad for the beelers and their friends; it would be bad for the capitalists; but it would be good for the working people-and that and Odell did, the Democratic politiis all the Social Democratic Party

to the working people, but it is a question that cannot be settled until wage slavery and class rule are overthrown.

So-called "respectable" society has always made a pretense of trying to "suppress" vice by penal laws. It has never succeeded in the slightest degree. And it does not really want to succeed. Every one knows that "respectable" society is just as much given to the vicious practices it denounces as is the part of society "Respectable" society drinks champagne instead of beer and employs servants to take it home when it gets drunk, instead of falling into the gutter. Respectable society keeps its parems in luxurious Harlem apartments, instead of visiting vulgar Alleh street. That'is the difference.

The "reformers" accuse Tammany of 'protecting" vice-the cheap, vulgarvice of the streets and getting rich on blackmall. The accusation is true. But what do the "reformers" propose to

They admit that they do not expect to abolish prostitution. But they say they do not want it to be flaunted so openly as it now is. They want to persecute the women of the street, to drive them into hiding, to conceal the vice that exists, not to prevent it nor to remove its cause:

And what is the cause of vice? What it that has well-nigh destroyed the old healthy family life? What is it that perverts human feelings and creates a commercial demand for prostitutes? What is it that drives women into a life of misery and shame? The answer is, It is capitalism which does this-capitalism, with its accompantments of idle luxury, callous contempt of rulers for workers, wretched pov

erty, and uncertainty of employment. Capitalism destroys the home by cutting down wages so that great numbers of workingmen cannot afford to marry, and so that those who have families have to send their wives and children out to work in order to make a bare living.

Capitalism perpetuates ignorance, oth by refusing to build schools for the people, by making it necessary for children to work for a living even when there are schools, by compelling men and women to work so hard and so long that they have no leisure or energy for reading and thinking.

Capitalism makes one class of people rich without work and educates them in the idea that they have a right to gratify every whim. It makes another class so poor that dissipation is the only refuge from their sufferings.

Capitalism makes it necessary for the daughters of the working class to work and the tenements in which the leave the home and the school and exposes them to all the hardships and temptations of the shop and factory. Then it makes their work so hard and their wages so small that they grow wild for anything to relieve the burren monotony of their lives. Then it throws them out of work and offers only a question of interest between the them the alternative of pauperism. suicide, or prostitution. Then, if they choose this last alternative, it takes a percentage on their shame and sets policemen and Comstock - sneaks to hound them to the grave. The owners of the world profit by all

the conditions, that drive women into prostitution and so long as we have a class of capitalists and a class of wage slaves, so long we will have prostitution with all the horrible suffering and degradation it implies.

The question of vice is a question. "stand in" with the heel- rightly be considered, evenright.

Like these are all the "issues" upon which the capitalist parties want us to vote-either questions in which the working class has no interest such as the question of "economy," or ques tions which cannot be settled by capt talist methods, such as the "vice ques tion." Upon such issues the working people cannot rightly or intelligently take either one side or the other.

The Social Democratic Party calls upon the working-class veters to re-fuse to be feeled by these false itsues set up by capitalist politicians, but to vote upon the one issue which rightly concerns them-the issue of Working Class Government agalust Capitally

Bitterly as Republicans and Den crats may fight over questions of taxa tion or over the distribution of public patronage, they are always united or the Labor Question whenever it comes into polities.

When a Democratic judge Issues at njunction against strikers, as Tamnany Judges Bookstaver, McAdam, and Freedman have done, or when Democratic mayor sends police to bring in scabs and arrest pickets, as Tammany Mayor Van Wyck has done the Republican newspapers appland them for "defending the sacred right of property.

When a Republican governor as Republican President McKinley and Republican Correct cians applaud them for "maintaining law and order."

heelers may fight over the division of from the working class. But they al! agree that the system of stealing from the working class must go on. And whenever the working people object to being robbed, they unite in crushing Labor's resistance.

The Social Democratic Party says that the powers of government ought torbe used for the benefit of the work ing class alone. It nominates for pub-He office men out of the ranks of the working class, tried in its battles and found true, and pledged to a platform drawn solely in the interest of the working class-men, who, when elected, will consider it their official duty to assist the workers in all their struggles with their employers, to protec the workers from capitalist imposi tions, to check capitalist oppression and restrict the exploitation of labor wherever possible, to ameliorate the sufferings which capitalism inflicts months working class, and to prepare the way for the Co-operative Commonwealth, in which all shall be workers and none shall be exploited or op

Upon this great, fundamental, allembracing issue, the Social Democratic Party calls upon the wage workers and all in sympathy to vote this fall under the emblem of the Arm and

If it was capitalist it wouldn't help labor any; and if it was Socialist why not call it Socialist?

Nothing but the Socialist program can ever break the chains of wage sinvery. So none of your pulliatives of a labor party is anything but a side-show.

—Call at the Labor Lyceum, 54 E. Fourth street and tell the Organizer you want some leaflets and cards to distribute among your neighbors, friends, and shopmates. He will supply you. If each of the ten thousand men who voted our ticket last year will distribute one hundred cards and leaflets, that will mean one million pieces of literature put out by individual effort—and that will mean a great many votes. Remeissber, YOU are one of the ten thousand. The Socialist Party is the only labo . Secialism is the workers' pol That and nothing else.—The So

They say: "The Socialists cannot win this time, therefore CLARE LABOR LAWS UNCONSTIvotes away." They say: "The So-cialists cannot win this time, therefore it is useless to vote, with them just now." So they continue to vote for whichever capitalist candidate they think is the lesser evil.

think is the lesser evil.

Workingmen, as soon as the capitalist politician has your vote he is done
with you. After he has your vote he forgets you, as long as you continue to vote for him he looks upon you as a park of fools good for nothing except to vote for him and create wealth for him, as long as you are fool-ish enough to vote for him he contin-ues to disregard the demands of labor and declare labor laws unconstitutional. IT IS ONLY THE VOTE AGAINST THE CAPITALIST THAT AFFECTS HIS ACTIONS. When the Socialist vote of New York piles up to fifty thousand, when the capitalist politician sees that the working class is about to cut off his head, when he sees that they are digging his political grave, then is the time that he will be strong to the piles of the piles afraid to trample labor under foot As long as you continue to vote for capitalists they will continue to issue injunctions, smash unlous; break strikes, and laugh at the rights of the public. When you vote against the capitalist, whether you elect your own candidate or not, you will so alarm him that he will be afraid to recklesshim that he will be alread to recklessty oppress the working class. BLACKMAIL ON

The "Reformers" Show Us Only One Side of the Picture.

Tribute Paid by Lawless Corporations a Greater Evil Than "Protection" of Petty Criminals - "Reformers" Do Not Discuss This, for a Very Good Reason.

The "reformers" are making a great argument out of the systematic blackmail levied by the Tammany adminis-tration upon saloonkeepers who violate the excise laws, upon gambling-house keepers, and upon disorderly women. No one has any doubt of the truth of their charges, and no decent man hesi-tates to condemn the criminal prac-

tates to condemit the criminal prac-tices they have exposed.

But there is a worse form of official blackmail and of protection to law-breakers, a form far more corrupting and far more dangerous to the public interest than this—and the "reform-ers" have not a word to say about it. No man is compelled to frequent sa-leons, gambling houses, or disorderly resorts unless he wishes to. But the majerity of the people are compolled to work in shops and factories, to live in rented houses, to buy the food offer-ed for sale by the merchants, and to ride every day on the street cars. If we are subjected to discomforts and dangers to health and life in these matters-as we are, every day-and i the employers and landlerds and fran-chise companies who thus impose upon us do so in violation of law—as they do all the time-and if the public officials fail to enforce the law against these men-as they do and long have done. both Republicans and Democrats-we have here a form of protection to law-breakers far more injurious and injuri-ous to a far greater number of persons

than the protection given to the petty criminals of the slums. We have certain factory laws on the statute books-law's restricting and regulating the employment of women and children, laws specifying certain sanitary conditions in shops and factories and prescribing the use of certain devices to protect workmen from

It is the business of certain Republi-It is the business of certain Republi-can state officials and certain Demo-cratic city officials to enforce these laws. They are paid for enforcing them. But they do not do it.

It is more profitable for the employ-er to violate the law than to obey it. Children are cheaper than men. Safety appliances on dangerous machinery and proper lighting and ventilation in workshops cost money—and the lower the expenses, the higher the profits. So the employer violates these laws and "squares himself" with the party in power by contributions to its cam-paign fund and by occasional bribes to individual officials.

We have certain laws in regard to the construction of tenement houses. They are very mild laws—not one-tenth as vigorous as they ought to be. But they are openly violated. The landlords and building contractors laugh at the laws except just before laugh at the laws except just before election time, when the officials make a little show of enforcing them. One result of the violation of these laws is that a good many working people are burned to death every year, because the houses are built of combustible materials, and have narrow, crooked halls and steep stairs and few or no fire-escapes. It is cheaper to build houses that way. Another result is that a shocking proportion of the children of the working class die in infancy, and that consumption and infancy, and that consumption and other contagious and fatal disenses are spreading with alarming rapidity among the working people, because the rooms are too small and the win-dows and air-shafts too few and fresh air and sunlight cannot get in.

It is cheaper to build houses that way. The contractors' profits and the landlords' net rentals are increased by the violation of these laws. So the contractors and landlords also con-tribute to the old-party campaign funds and bribe some of the officials and the laws are forgotten:

We have certain laws ferbidding the sale of adulterated foods or of foods that are partly spolled. But they are they are properly housed, if they were properly housed, if they SOCIAL DEMOCRATIC PARTY sold, in spite of the law. Every little while we read how milk is "doctored" with injurious compounds so that it will appear sweet when it is really unfit to drink, how half-spotled mea is chemically treated to conceal its putridity, how prepared foods of all sorts are adulterated, often with actually poisonous ingredients.

These unwholesome or poisonous foods are sold cheap. Common people have no means of testing the food they buy; to see whether it is pure or not. Their wages are so low and their needs so many that they have to buy the cheapest goods they can get. So the working class is systematically It pays to poison the people-making

them pay for the poison. That is why merchanis do it, in defiance of the law. It is sometimes the, small merchant that is to blame, but often a rich corporation. This corporation also con-tributes to campaign funds and bribes officials and the laws are forgotten. We have some laws very mild ones indeed-ostensibly designed for the protection of employees and passen-gers on the street railways. The street railway companies find it cheaper to violate these laws—to work their men beyond the legal limit, to the injury of their health and efficiency and to the serious danger of the public; to jam the passengers like sardines, instead of providing plenty of cars for them; to maintain dangerous grade crossings and dispense with fenders.

By doing these things they succeed in parting into their pockets, as net profits, two and a half cents out of of the roads. They can afford to con tribute to the campaign funds of both old parties in order to secure protection in breaking the law, and they do it— besides bribing individual officials.

Jay Gould once said: "In a Republican state I am a Republican; in a Democratic state I am a Democrat; but I am for Erie all the time." That is the policy of the Metropolitan Reil-

way Company, of the Brooklyn Rapid Transit, of the Manhattan Elevated. One of the Havemeyers, of the Sugar Trust, testified a few years ago, before a Congressional committee, that his company regularly made EQUAL con-tributions to the national campaign funds of BOTH old parties. It was a good scheme, and it applies to local as well as national politics.

The "reformers" are not talking about such "protection to lawbreak-ers" as this. Mr. Platt, who is supporting them with his machine, kno should mention the matter. And even without Mr. Platt, there are too many of the "respectable reformers" who own stock in the various lawbreaking corporations or own tenements con-structed in violation of law, or are otherwise interested in the matter. Those who live in glass houses are very careful about where they throw
